

TEEMA Healthcare Technology provides expert resources to a Public Health Authority.

Challenge

- Our large public sector Client consistently requires augmented staffing solutions to fill gaps in specialized skill sets and when Staff are seconded to new projects. These instances often require multiple resources and starts within days.

Solution

- TEEMA's Client Manager and team of skilled Recruiters continued investing in building deep, strong and trusted relationships with top talent in this space and advising the Client on what will be required in each case to secure the most desired resource.

Outcome

- TEEMA has placed over 1,100 resources over 10 years. We continue to be a trusted partner for staff augmentation and in recent years earned multiple managed service projects that are ongoing.
