

TEEMA Public Sector Technology provides Governments and their Agencies and Corporations with expert resources.

Challenge

- Our large and multi departmental government Client consistently requires niche skilled technology professionals to fill resourcing gaps on projects and teams.

Solution

- TEEMA's Client Manager and team of skilled Recruiters understand and respect the government's responsibilities, process and need for partnership in resourcing. Our dedicated team deliver high quality, fully vetted and prepared Candidates to join them.

Outcome

- TEEMA has filled over 230 positions over 5 years in across 7 departments. The Managed Service Provider confirmed we are among the top 10 suppliers on the program that allows hundreds to participate in the public spend.

Sampling of Roles Filled:

- Enterprise Technology
- Architects (all kinds)
- Project Management (all levels)
